

RE-ELECT
**PRESIDENT
JIMMY
CARTER**

**VOTE IN THE FLORIDA
DEMOCRATIC PRIMARY
TUES. MARCH 11**

He's earned your trust.

Your first chance to vote for President Carter will be at your Democratic County Caucus on Oct. 13. Check with your local party organization for time and location.

We can trust President Carter to fight for what's right.

President Carter took office with an outsider's insight. He had seen our nation struggle with long-festered problems that were ignored by previous administrations.

It would have been easy to follow their trend. Instead President Carter rolled up his sleeves and tackled the toughest obstacles that came his way, even when the special interests and lobbyists lined up against him.

He moved our government out of the shadow of neglect, and into the light of action.

He was told that you couldn't beat the oil lobby, but he developed the first comprehensive energy program in our history. And he won. He took on the fight to streamline government, to cut needless regulations, to relieve Americans' burden of federal paperwork by 15%. And he won.

He slashed the federal budget deficit from \$66 billion to \$29 billion, and is on the way to balancing the budget.

And he continues to fight to contain rising hospital costs, to provide decent housing and health care for all our citizens.

When it's time to cast your ballot, measure his results against their slogans.

Walter Mondale has been the most active and influential Vice President in history. His congressional experience has made him one of President Carter's closest and most respected advisors, a working partner on every major issue.

President Carter has restored honesty and integrity to our government.

President Carter has revived trust in our government—and with it, our national pride. Five years ago, our nation was crying out for a return to the rule of law. We had been sobered and saddened by the spectacle of corruption and lawlessness in high places.

President Carter has torn down the wall of secrecy surrounding the White House and replaced it with an open and competent administration. He has insisted that the government be as honest as the American people, and that all be held to a high standard of ethics and accountability, with no exceptions.

He has placed special inspectors in every major federal agency to uncover waste and fraud that have robbed the American taxpayer. He has routed out graft in the General Services Administration and brought an end to impropriety in the Small Business Administration. His proposed Welfare Reform Bill will reduce cheating and deception, while providing more adequate benefits for rightful recipients.

The President has signed into law the toughest Ethics Bill ever enacted in this or any other country. He has taken politics out of the Justice Department and put the law above the political process.

When it's time to cast your ballot, ask yourself who fought for sweeping reform.

Leadership is action, not vague promises.

The accomplishments of the Carter Administration thus far have come about through strong, compassionate leadership.

Agriculture

Farm income rose from \$20 billion in 1977 to \$28 billion in 1978, and will rise substantially more in 1979 to a near record level. At the same time, U.S. agricultural exports have also continued to set new records. In dollar terms, exports increased 14% last year and are expected to increase another 18% this year. President Carter pledged to reduce federal interference in agricultural decision-making, and he has. Ineffective or misguided policies of the past, such as export embargoes, acreage allotments and price controls, have been discontinued.

Employment

Under the leadership of President Carter, unemployment has decreased by 25%. 8.1 million new jobs have been created.

Tax Relief

Taxes paid by individuals and businesses have been reduced by \$25 billion. Under the leadership of President Carter, the tax system has been simplified and made more just and fair to middle-income workers.

Defense

America's military might is second to none. By making our defense budget leaner and more cost effective, and eliminating the fat and waste, President Carter has been able to increase defense spending by 3% in real terms, while cutting inefficiency and duplication.

Social Security

President Carter acted to save the Social Security System from certain bankruptcy, thus assuring 33 million people who receive benefits and those who make contributions that there will be sufficient funds to meet the system's obligations to them.

President Carter has helped lead the way to peace and security.

Since President Carter took office, not one American has died in battle.

Peace is no accident; it must be re-won daily. Our President's personal quest for peace has been a source of admiration and pride throughout the world. President Carter maintained and strengthened our nation's historical and moral commitment to the survival and freedom of the nation of Israel, while at the same time bringing Egypt into the peace process. The courage of President Carter, Menachem Begin, and Anwar Sadat has given real hope for the first time in 30 years to the dream of peace in the Middle East.

President Carter has also fought tirelessly for a tough but balanced strategic arms limitation treaty, so that someday all the world may be free from the fear of nuclear war. But knowing that America cannot have true security without strength, he has taken decisive action to bolster our international commitments to our allies, and advanced the cause of human rights around the globe.

None of this would have been possible without a renewed spirit of national unity in our own country.

It's been almost twenty years since a President could tell the American people with pride that our nation is at peace, that the rule of law is strong, and that unemployment has declined dramatically. When it's time to cast your ballot, keep President Carter working for America.

“Restoring faith and confidence

to America is now the most important task we face. It is a true challenge of this generation of Americans. I will continue to travel this country, to hear the people of America ... I will listen and I will act. We will act together. ... We can spend until we empty our treasuries and we may summon all the wonders of science, but we can succeed only if we tap our greatest resources—America’s people, America’s values, and America’s confidence.”

President Jimmy Carter

You can help

President Carter’s re-election campaign by mailing a contribution to:

**Carter/Mondale Presidential Committee, Inc.
P.O. Box 500
Washington, D.C. 20044**

I want leaders we can trust.

☐ My contribution of _____ is enclosed:

☐ I’d like to help with the campaign.

Please contact me with more information.
